Renu Advanced Skin Care

Youthful cells renew much quicker than aging cells. Active cellular communication is key for renewal of healthy, beautiful skin. Without cell signaling molecules, skin cells **can't communicate**. ASEA's patented redox signaling technology has been clinically proven to benefit cell communication and renewal for a healthy, youthful appearance.

Each product in the RENU Advanced family has received a 5-star accreditation for safety—the highest possible— by leading European dermatological

research institute,
Dermatest.

Fresh Ingredients Matter

Your skin is the largest organ you have. It is a barrier to protect you. However, it does not have a way to protect itself from being exposed to chemicals. According to Dr. Samuel Epstein, former head of the Cancer Prevention Coalition.

“It’s more dangerous to put a product on your skin than to eat it.” Why? Because our bodies have detox mechanisms at work; our skin does not. For more information on how to protect yourself from toxic chemicals ask for the pocket guide to harmful ingredients at your next visit to Blue Orchid Clinic.

A breakthrough for our breakdown.

What is it?

A Cell Signaling Supplement & Topical Gel.

What does it do?

It turns on genes.

Why do we need it?

Our cells are breaking down.

With an opportunity to leave a legacy.

ASEA REDOX Cell Signaling Supplement contains active redox molecules — cellular messengers that affect gene expression in a positive way, helping to protect, rejuvenate, and keep cells functioning at optimal levels. ASEA REDOX users enjoy cell signaling benefits which translate to health at the most foundational level. ASEA REDOX has been scientifically tested and shown to signal the activation of genetic pathways or affect genes that:

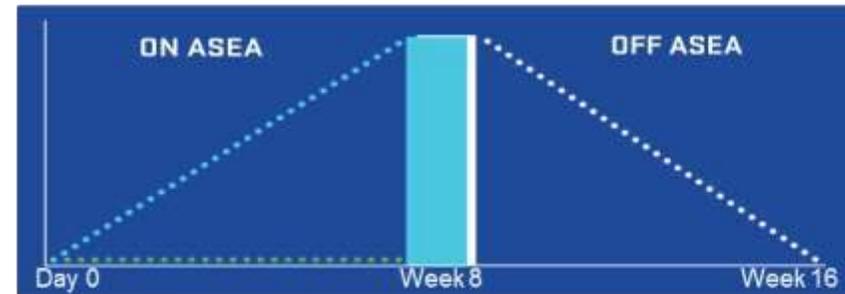

- Improve immune system health*
- Help maintain a healthy inflammatory response*
- Help maintain cardiovascular health and support arterial elasticity*
- Improve gut health and digestive enzyme production*
- Modulate hormone balance to support vitality and wellness*

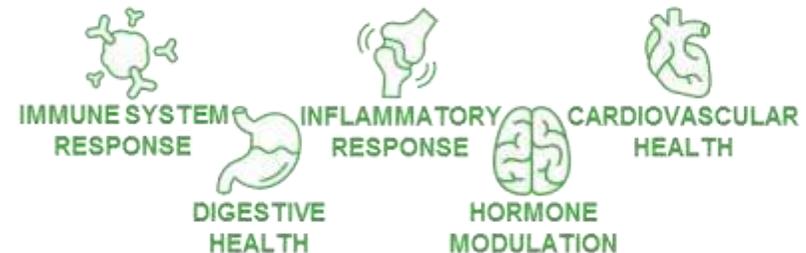

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Groundbreaking New Research

- Study Hypothesis: Will drinking ASEA have a positive impact on gene expression in human cells?
- **The ASEA REDOX Supplement group experienced a 20 – 31% positive shift in five genes involved in pathway signaling**
 - The genes play a key role in influencing five human health areas and dozens of pathways

- The effects were nonspecific to race, sex or age, and observed in all ASEA study group participants
 - Mean age of participants: 35 years old
 - **All beneficial changes reverted back to pre-study levels**
- A randomized double-blind, placebo-controlled study
 - Reviewed and approved by an independent review board
 - Performed by a leading independent genomics lab
 - **Placebo group tested with pre-ASEA saline solution**

“These results are unique and exciting. ASEA is a signaling supplement, and the pathways expressed are signaling genes.”

Whole Food Nutrition Complex

Fruit & Veggie Blend (Orchard & Garden)

\$44.50 (per month for 4 months)

\$178 (4 month supply)

Juice Plus+ Fruit and Vegetable blends provide added whole food based nutrition from 20 different fruits, vegetables, and grains in convenient capsule form. Each ingredient is specially selected to provide you with a wide range of nutritional benefits. Juice Plus+ is made from fresh, high-quality, healthful fruits and vegetables and is carefully tested to ensure that no pesticides or other contaminants affect the natural purity of the product.

Berry Blend (Vineyard)

\$28.50 (per month for 4 months)

\$114 (4 month supply)

Just as Juice Plus+ Fruit and Vegetable blends are the next best thing to fruits and vegetables, Juice Plus+ Berry Blend provides added nutrition from Concord grapes and a wide variety of berries – including blueberries, raspberries, blackberries, bilberries, and elderberries – that provide some of the most powerful and healthful antioxidants in fruits and vegetables, in convenient capsule form.

Omega Cellular Health

Omega Blend

\$33.25 (per month for 4 months)

\$133 (4 month supply)

Juice Plus+ Omega Blend is a plant-based combination of the omega 3, 5, 6, 7 and 9 fatty acids, containing DHA, EPA and ALA, that are derived from fruits, algae and seed oils. By harvesting omegas from the original algae source instead of fish and using a cold-pressing technique for our seeds to maintain the purity of the nutrients, we've ensured our Omega Blend is sustainable and environmentally friendly.

Whole Food Nutrition Complex

Trio Blend Chewables

\$76.25 (per month for 4 months)

\$305 (4 month supply)

Juice Plus+ Fruit, Vegetable and Berry Blend Chewables deliver added whole food based nutrition from 30 different fruits, vegetables, grains and berries in a tasty, soft chewable form. The appealing taste comes from two all-natural sweeteners – tapioca syrup and organic cane syrup – with absolutely no high-fructose corn syrup. It contains no artificial flavors or artificial colors and is 100% vegetarian; the chewy texture comes from fruit pectins, not gelatin.

*Other pricing and sizing available. Please ask for details.

Grow your own food!

Grow 30% More Food, 3x Faster

Using aeroponics—the same technology NASA uses—Tower Garden grows plants with only water and nutrients rather than dirt. Research has found aeroponic systems grow plants three times faster and produce 30% greater yields on average. That means **you'll be enjoying abundant, nutritious harvests** just weeks after planting.

Tower Garden

Tower Garden, a vertical, aeroponic growing system, allows you to grow up to 20 vegetables, herbs, fruits and flowers in less than three square feet—indoors or **out. So it's the perfect companion in your journey** toward healthy living.

Get Nutrient-Loaded Produce (without Loads of Work)

Pests, disease, weeds—traditional gardening can be complicated and time-consuming. But because Tower Garden automatically delivers water and nutrients when **they're most needed, you're able to grow strong, healthy** plants with minimal effort. And healthy plants can better protect themselves from pests and diseases naturally, **without pesticides. Plus, you don't have to deal with weeds** (or getting dirty) because there's no soil.

Uses 90% Less Water and Space

Want a garden but don't have the space? Because of its vertical, compact design and closed-loop system technology, Tower Garden requires as little as 10% of the **land and water traditional growing methods use. So it's** perfect for sunny small spaces, such as balconies, patios, rooftops—even your kitchen provided you use **grow lights. And it's better for the environment, too!**
